Institutional Strategic and Perspective Plans

The college has a well-defined strategic plan for the development of the institution following the rules and regulations. Meetings of different stakeholders are analysed and acted upon in a cohesive manner. For decentralization and implementation process, college committees are consciously and consistently working for the better development of the college. The structure of the college from administration to academics is in a well-knitted structure working for the development process.

IQAC ensures effective Feedback system from all stakeholders to get information about the implementation of plans and their suggestions for development. With objective, the plans are made, and policies are executed.

There are several committees for monitoring the plans and objectives of the college. College has staff council, which plans out short and long goals for a systematic development of academic as well as extracurricular domains of the institution.

Delegation of powers for better management- Faculty members provide platform for the students to develop their leadership qualities.

Management in Participatory Way- The college takes care that every decision should be in participatory manner. Every committee has a convener, and the members are active advisors. They help the leader to take decision sensibly.
